# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

### Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

### Weather of Concern

- After the storm system that produced the snow before and during Thanksgiving exits to the east, another area of low pressure in the eastern Pacific will approach the West Coast. However, this system is expected to weaken as it moves onshore Monday, resulting in no precipitation for the Sierra. Later in the week, a cool, wet, windy storm system is on track to impact Northern California next Thursday. This storm may produce moderate snow amounts, with lighter rain and snow for lower elevations.
- Compared to last week's system, this one is likely to be a fair bit breezier, which could lead to some downed small trees and branches, along with local power outages.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

#### **Eureka Weather:**

Dry and unseasonably cold weather will persist through today. A period of light rain and high elevation snow will be possible during the day Monday. Mid to late week a strong storm system may bring wind and rain to the area.

#### **Medford Weather:**

Another cold morning forecast today with skies remaining clear, except for portions of Umpqua Valley near Roseburg which remains in fog yet again. Also this area will be slow to clear and will remain a bit cooler than the rest of the west side valleys. On Monday, a series of systems will begin to push into the Pacific Northwest, marking a return to a wet and active pattern that will likely persist for at least the next 10 days.

#### **Reno Weather:**

A weak high pressure ridge will lead to strengthening inversions and deteriorating air quality the next few days. A modest winter storm will impact the region Thursday into Friday with travel impacts in the Sierra expected.

#### **San Francisco Weather:**

A cold start followed by a sunny and seasonably cool afternoon should mean no weather related issues for this afternoon and evening. Still cold Monday morning, and then a weak front will approach the coast Monday but only with some clouds expected. Dry and seasonable conditions expected on Tuesday and Wednesday. A fast moving and moderate strength front is forecast to arrive Thursday with a quick burst of rain and wind before turning to showers Thursday night. High pressure builds behind the front with mainly dry weather forecast by Friday.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Freezing morning expected today and Monday. The next storm system will arrive late Wednesday into Thursday bringing cold, wet, and windy weather to the region.

#### **Hanford Weather:**

Low pressure over the Great Basin will move east today as a weak weather disturbance moves into Arizona. High pressure will then prevail through Wednesday before the next Pacific weather system moves into California on Thursday.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Daytime highs will slowly rise through the middle of next week as high pressure builds aloft and weak offshore flow continues. However, interior areas will remain cold at night through early next week. A trough of low pressure will then bring a cool down and a chance of rain for the end of next week.

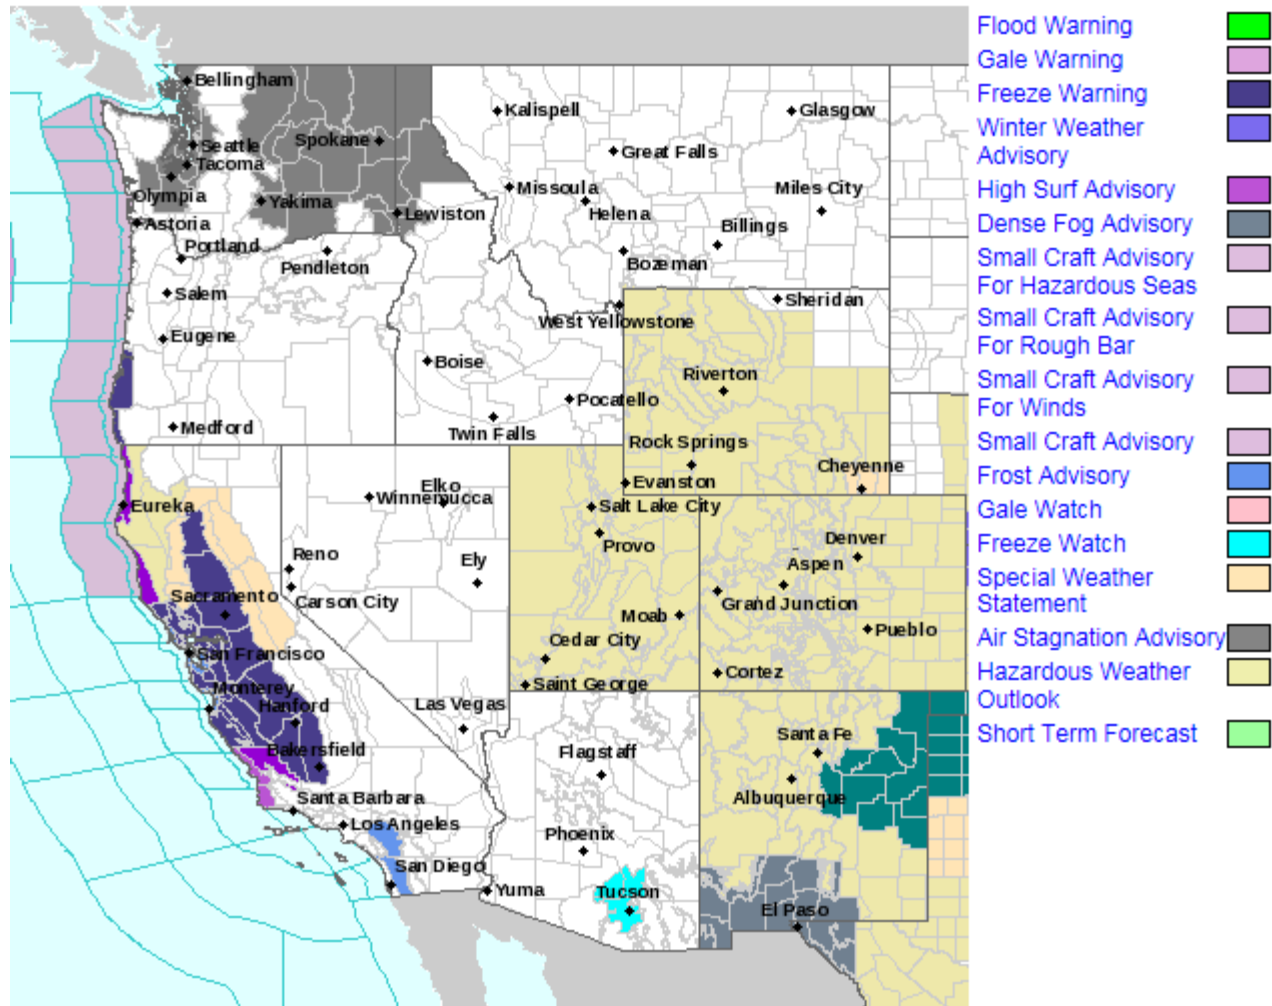

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

The forecast area will be in a quiet weather pattern through Wednesday with weak offshore flow bringing mild days and relatively cold nights. Low temperatures will fall near freezing in the inland valleys and lower deserts where frost advisories are in effect. On Friday, a weak Pacific trough will bring clouds and a few light showers.

#### **Southeast California Weather:**

Cool but dry weather will continue across the southwest states into early this week. Some lower elevation desert spots will dip below freezing during the morning hours through Tuesday, with Monday likely the coldest. Warmer weather will arrive starting midweek and likely last into next weekend. The dry weather pattern is expected to continue through the coming week.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

### **Local Emergency Proclamations:**

**A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:**

- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

# CAL OES MISSIONS

## Closed Cal OES Missions

- **2015-LAW-20202, 11/28/15, 1024 hours:** IERCC notified Cal OES of a SPOT activation located in San Bernardino County. After contact with IERCC, LDO made contact with an individual in the Registered Owner's (RO) group. RO suffered a significant injury while dirt bike riding and was airlifted to a medical facility for treatment. The SPOT device was later silenced at 1232 hours. **Mission Closed**

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
